Introduction

Synergy is a global supplier, distributor and trader of recyclables, prime, and non-prime raw materials. We deal in an array of products including, Plastic, Paper, Steel and Minerals.

Synergy Tradeco NV was founded in Antwerp, Belgium with a mission to trade with its partners with 'Synergy' to get the best outcome for everyone. We specialize in the global buying and selling of recyclable, prime, and non-prime raw materials. We strongly believe in offering our customers a consistent and dependable supply of quality raw material with competitive pricing.

Furthermore, we have a synergised infrastructure of multiple strategically selected warehouses, logistic partners, shipping lines and relations with multiple suppliers throughout Europe and also in the USA and Brazil to fulfill all our customers' needs. Additionally, the company has a physical presence via associated company offices in 22 countries.

Our Strengths

SYNERGY MODEL

We live up to our name.

"The combined power that can be achieved by two organizations or groups of people working together rather than separately."

Cambridge dictionary

STRATEGIC GROWTH

With the 'Synergy' business model, we are able to grow at a tremendous rate by bringing the right people together by the right methods and that reflects in our splendid turnover growth in the last three years.

GLOBAL PRESENCE

We operate in over 90 nations globally and currently have various associate offices active in the UK, Spain, Portugal, Italy, Poland, Germany, USA, Brazil, Mexico, UAE, China, India, Pakistan, Czech Republic, Romania, Slovakia, Singapore, Bangladesh, Netherlands, Slovenia and Canada all directed by the headquarter in Belgium.

OUR PHILOSOPHY

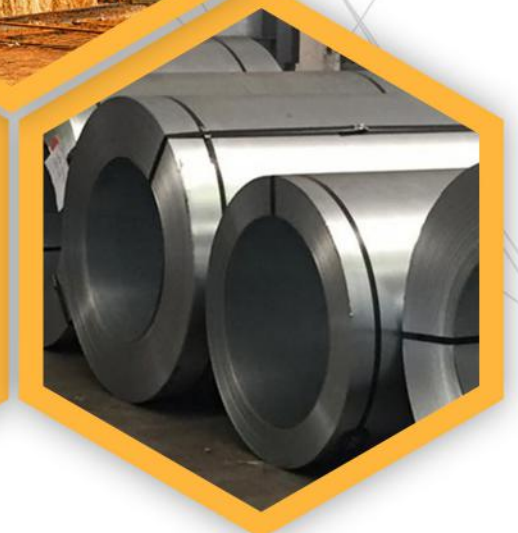

A company can only progress with TEAM work and long term partnership with its trade partners. We believe in high standards of business to work as a 'Team' and work with 'Synergy'

and
PET Bottles / Flakes
and Purge

100% Recycling
of plastic is the
only solution to
save the planet

Minerals

Our strong local presence, qualified team and infrastructure in Brazil has been key to providing value added services to our customers by providing a consistent supply of our range of products originating from South America.

- We have established off-take and marketing agreements with some miners with large reserves and sound production capacity to meet regular demand of our customers.
- We have an in-house legal team in Brazil who carefully checks all the documentation and licenses of the miner before export to be sure that the transaction is clean and as per the allowed norms.
- Our ongoing research and investment in green-field projects have been promising with some projects being identified with potentially large deposits.
